### General Information

**1) When does registration for 2021-22 take place?**

See the box at the end of this document.

**2) How do I register for summer 2021 courses?**

Visit the Portal at Scheduling\Graduate Studies and Continuing Education Registration.

**3) Where can I get my most complete information on courses?**

The most recent online catalog (Portal\Information\Catalog\[red rectangle in middle-right] Undergraduate Catalog) has it all, including all course descriptions and prerequisites.

**4) How do I receive compact summaries of course information?**

All returning students receive these (one-page list of all pre-sem courses, "Foolers", and FAQs) by email from the Deans' Office (Mrs. Diersen). All new students receive this information in a mailing from the Records Office. See also Portal\Scheduling\Schedule Planner\Registration Instructions (blue, middle left)\Pre-seminary Registration Instructions and Tips (<https://help.mlc-wels.edu/books/scheduling>).

**5) Where can I get my own (personal, tailored) pre-seminary program plan?**

You can find it on Portal at your own directory page. See **Program Plan:** Download.

**6) What, where, and why is the five-year plan?**

The five-year plan is available under Scheduling on the Portal. It shows when courses will be offered up to five years out. It helps students and advisors plan long-range for completion of a degree program. The Course Schedules (Portal\Scheduling\Schedule Browser\Courses\Course Schedules) are helpful for especially Summer 2021 through Spring 2022.

**7) How I do know whether there is room for me in a given course?**

Visit "Course Status" under Scheduling on Portal.

**8) What, where, and why is my unofficial transcript?**

Your unofficial transcript lists all the courses you have taken with their grades. It also shows your current school year's courses. It is available – after you log in – on Portal under Grades.

**9) What things should I be careful to do regarding my unofficial transcript?**

**Distinguish degree and non-degree credits.** The unofficial transcript's total of credits earned is not necessarily the same as the *degree* credits (credits that count for graduation) earned. Remedial, choir, band, and non-pre-seminary (in other words for all four, *non-degree*) credit is also tallied as credit earned. Not every credit earned is necessarily degree credit.

**Understand credit totals and GPA.** AP, cbe, CLEP, and transfer credits (these all show at the top of the unofficial transcript) do not tally into the Portal's "total credit" number. The credit total reflects only courses completed at or through MLC, because GPAs are based only on courses earned via MLC.

**Tally your *degree* credits.** If you wish, you can check off your unofficial transcript credits against your pre-seminary program plan to tally your *degree* credits. *Degree* credits include AP, cbe, CLEP, transfer, and MLC courses, any courses that apply toward the bachelor of arts degree. Check your program plan to distinguish between *degree* credits and any others (remedial, audit, non-pre-sem).

**10) I am presently a freshman (sophomore, junior), but the Portal shows me as a sophomore (junior, senior). Does that matter?**

Yes, and only in positive ways. It reflects your total number of credits accrued. It determines your "spot in line" for scheduling classes, as well as priority in other aspects of campus life. But your program plan shows how you will accrue the 130/131 *degree* credits needed for graduation and your actual graduation date.

### Electives

**11) Please refresh my memory about electives.**

**Area electives.** Every pre-seminary student must choose one area elective in each of several academic areas – English, Greek, history, and science. Not all electives fulfill an area requirement. The ones that do are listed in the catalog and on the one-page summary of pre-seminary courses. Additional area electives (beyond the one required in a given area) count as degree-credit free electives.

**Free electives.** Also free electives (from the list of pre-sem courses) are required of the pre-seminary student. Any non-biblical language courses taken outside the student's non-biblical language option count as free electives. And again, additional area electives are counted as free electives.

**Non-pre-seminary courses.** Pre-seminary students may carry non-pre-seminary courses on their schedule, if they meet the course prerequisites. While they do *not* receive degree credit for them, such courses carry college credit (just not *degree* credit) and do impact GPAs. Students should keep in mind the eighteen-credit ceiling (see below, next).

**12) What are the credit minimum and maximum that a student may carry?**

**Credit minimum.** Four-year traditional pre-seminary students ordinarily maintain full-time status (twelve or more credits). To carry fewer credits, a four-year pre-seminary student must obtain permission from the academic dean.

**Credit maximum.** Students have an eighteen-credit limit each semester. A waiver to that policy may be received through appeal to the Vice-President for Academics. Courses such as choir, band, instrumental lessons, etc. do count toward the eighteen-credit ceiling, unless they are taken as an audit. Total number of credit and audit hours may not exceed twenty-one.

**13) What is a GenEd menu?**

A GenEd menu is a list of courses in a given academic area (e.g., science, fine arts), any one of which fulfills the requirement in that area as part of the general education required of all MLC students.

### Chinese

**14) What is the status of Chinese (Mandarin) as a pre-seminary language option?**

Chinese is currently being phased out as language option. For 2021-22 it still being offered at the Intermediate I, II, III, and IV levels.

### Greek

**15) If I have taken only *Elementary Classical Greek*, how do I know whether to register for *Intermediate Koine Greek* or *Intermediate Classical Greek*?**

The Elementary Greek professors select the Koine students. Students may not self-select Koine.

**16) How does GRK3002 Greek Classics in Translation fit into degree program plans?**

GRK3002 is a required course for students in the koine Greek track. It is a free elective for classical Greek students.

**17) When is GRK3002 Greek Classics in Translation offered?**

It will be offered again in the fall semester of 2022-23. Koine-track rising sophomores and juniors should plan to take GRK3002 fall 2022.

## History

### 18) **Must I take HIS2112 Rise of the West, though it is not a GenEd requirement?**

Yes, it is a pre-seminary requirement.

### 19) **When is the best time to fulfill my HIS3010 US History since 1945 GenEd requirement?**

The best time is second semester of your junior year, this for good balance among the writing and speaking emphases of the pre-seminary program.

## Spanish

### 20) **Is Spanish immersion required to complete the Spanish option?**

No, but see below at 21) and 25).

### 21) **Beyond increased proficiency in Spanish, what other advantage is there in Spanish immersion?**

MLC Spanish immersion is now a prerequisite for participation in the WLS Spanish immersion that takes place during Winterim.

### 22) **What is the Spanish Certificate?**

The Spanish Certificate program outlines the Spanish-language courses needed to give pre-seminary students the Spanish proficiency they need to serve in congregational settings.

### 23) **Beyond preparation for ministry, what is the benefit of the Spanish Certificate?**

The Spanish Certificate communicates to the student what is needed to achieve high function in Spanish. The Spanish Certificate identifies for the seminary and calling bodies students who have achieved such proficiency.

### 24) **Does the Spanish Certificate have to add to my total credit requirements or extend my time before graduation?**

No. The Spanish Certificate does not have to add credits to a typical Spanish-option degree program plan – if one chooses SPN3001, SPN4011 (3 of 6 credits, see below), or SPN4012 (3 of 6 credits, see below) to meet the GenEd intercultural requirement. To achieve the credits of the Spanish Certificate, the student uses the GenEd intercultural requirement and the four free electives that are already built into most (not all) pre-sem plans. Koine Greek students will have, because of the GRK3002 requirement, one extra course (3 credits) total in their degree plan.

### 25) **How does the Spanish Certificate compare to the Spanish option?**

As mentioned, the Spanish Certificate fits within existing degree plans and includes . . .

- 1) **all four Spanish option courses** (<sup>scR</sup> on the pre-sem courses sheet)

**plus**

- 2) **SPN4011 Spanish Immersion I** (<sup>scR</sup> on the pre-sem courses sheet) (six credits).

**plus**

- 3) **ANY THREE** of the following courses (<sup>scM</sup> on the pre-sem courses sheet)

- SPN3001 *Latin American Culture and Civilization* (meets intercultural requirement or accounts for one free elective).
- SPN3011 *Advanced Spanish Conversation* (accounts for one free elective)
- SPN4000 *Spanish and Latin American Literature* (accounts for one free elective)
- SPN4001 *Selected Topics in Spanish I* (accounts for one free elective)
- SPN4002 *Selected Topics in Spanish II* (accounts for one free elective), (**and see next page**)

**Important Tip:** Splitting SPN4011's six credits between one 3-credit free elective and the 3-credit GenEd intercultural requirement keeps you from "overspending" your free electives. You still have three free electives left for the "any three" menu courses (below-left).

**Important Tip:** Taking SPN3001 helps fulfill the requirements for the Spanish certificate without adding credits to your program. You can meet the GenEd intercultural requirement with SPN3001. It is also one of the "any three" other Spanish courses.

Note that SPN3001 tallies only three total credits toward your degree. You would still need four total free electives, two of which would need to be from the "any three" menu (left).

- OR **SPN4012 *Spanish Immersion II*** (<sup>scM</sup> on the pre-sem courses sheet) (six credits. On a typical pre-sem degree plan those six credits account for 2 free electives or one free elective and the GenEd intercultural requirement),
- OR **a year abroad** in Spanish (<sup>scM</sup> on the pre-sem courses sheet) (no MLC credit, but meets SC requirement).

**Scheduling and Registration for 2021-22**

Flex Period Opportunity to Consult with Advisees .....	March 17
