More Google Meet Settings

Additional Google Meet settings can be accessed by clicking the three dots in the bottom right corner of the screen.

- **Record Meeting:** Currently any Google Meet can be recorded by clicking this button. The recording is saved in the Google Drive of the person who started the Google Meet. It can be shared with others from Google Drive. It is good practice to inform participants that the meeting is being recorded.
 - *This is a pro feature and will be turned off when the situation is over.*
 - **Change Layout:** This changes the layout and number of videos that appear at the same time.
 - **Turn On Captions:** This has the same function as the other captions button.
 - **Settings:** This brings up the options for changing the microphone, speakers, and video camera being used in the Meet. Clicking the dropdown menu next to the device types and choosing a different device can sometimes fix audio and video issues.
 - **Use a Phone for Audio:** For slower internet connections, connecting to the audio via phone can sometimes yield better results.
 - **Report a Problem:** This sends a message straight to Google.
 - **Help:** This will bring up the [Google Meet help center](#) in a new tab.
