Information Security

Martin Luther College maintains a comprehensive information security program in order to safeguard the data entrusted to the campus.

- Information Security Policies
- Approved Software Lists
- Data Team

Information Security Policies

All current information security policies can be found on Google Drive. Please visit the following link to find out more:

- **Information Security Policies** (Google Drive folder)

These policies are developed, reviewed, and recommended by the Information Security Committee and approved by the Administrative Council. Below is a list of policies, links, and the last revision:

Policy	Status	Revised	Reviewed
IS0005 - Employee Information Security Policy	Approved	11/30/2023	5/1/2026

Approved Software Lists

Data Team

The Data Team is made up of Martin Luther College employees tasked with fielding and investigating requests for perpetual access to various types of data on campus.

Data/Information Access Request Form
