

Library Help for Students

Please encourage your students to contact a librarian for:

- Research help -- searching databases, selecting keywords, using indexes, finding books on the shelf, and more. Not all students know how to use a library before they arrive at MLC. We are ready to help them!
- ILL requests -- finding copies of books or articles, even if they aren't part of our MLC collections. Digital ILL article copies and requests for books from other libraries are an underutilized service that our library provides.

We are happy to help in person, by phone, or by email.

Revision #3
