

Class "Attendance" in Moodle

It may be useful to know when a student last accessed your course. Moodle keeps track of that for you. Directions follow (click on an image to open a larger view in a new window):

<p>1. In your Course page, look to the upper left corner to find the button with three horizontal lines (the "hamburger"). Clicking the button will open the left pane.</p>	
<p>In the left pane, select "Participants."</p>	
<p>A list of all the course participants will appear. You can view when each participant last accessed the course.</p>	

If you have a large roster, you can apply a filter to search for a specific participant.
