Moodle Messenger

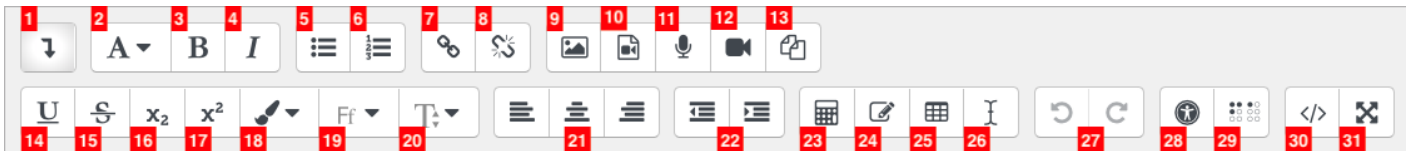

- Moodle Messenger is an instant messaging system within Moodle that can be used to communicate with instructors and classmates.
- Access Moodle Messenger by clicking the  in the top toolbar from anywhere in Moodle.
- After opening the Moodle Messenger window, use the search box to find the person you wish to message. Note that you will only be able to contact Moodle users who are in your classes.
- Once a conversation has been started, you can star the conversation or add the user to your contacts so you can access the conversation quickly. You can also block or mute the user.
