Moodle Overview

Moodle is the learning management system (LMS) used at Martin Luther College. Graduate, Continuing Education, and other online students will utilize Moodle to access course content, submit assignments, communicate with classmates, view grades, and more. Moodle can also be used in undergraduate and face to face courses at the discretion of the instructor.

MLC KnightHelp contains documents and instructions for the most commonly used features of Moodle. If you need additional help, please contact your course instructor first. If they are not able to solve the issue, please contact MLC IT Services at support@mlc-wels.edu.
