

Turn on notifications in Google Docs

Turn on notifications in Google Docs so you don't miss changes to shared documents. This can be useful for meeting reports that may be updated after the link is sent or when people are editing a shared document. To turn on notifications, go to Tools→Notification Settings, and click the button in the Edits section for Added or Removed Content. You'll then get an email each time the document is changed.

Revision #1

Created 21 January 2025 20:27:52 by Linda Kramer
