- Excel video training
- Access- Basic
- Access- Advanced - this may require a seat on LinkedIn Learning. Contact ITS for a seat

Google

- Google Workspace Training
- Google Workspace End User Learning Path
- Google for Education

Iorad

Iorad is a platform that allows you to create step-by-step tutorials by recording the actions you take on your computer. You can customize the tutorial and share it or link it. This a great tool when you have to explain or demonstrate how to do a task more complex than one that could be modeled by a screenshot. https://www.iorad.com/
